

HIGH SCHOOL GENERAL LYKEIO

EKPAIDEFTIRIA BOUGA

We believe that every child is unique

School Year 2023 -2024

ABOUT US

Dear parents and guardians,
We would like to inform you about all the issues of everyday life and communication that will help with our cooperation.

Every year begins with new plans but always with the same vision. To provide to our students all the values, knowledge, skills that will make them Citizens of the World.

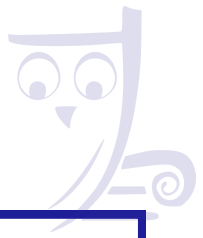

Moving on to the 4th decade of our educational path many changes have been made but we remain firmly committed to our goals. To innovate in Education, to delve into Education, to promote Culture.

At Ekpaideftiria Bouga every child has a unique opportunity to make our world a better place.

And this year we will try to honor your trust and offer our children the school they deserve. We are here for anything you need.

*Best regards,
Fotis Bougas*

Dear parents and guardians,

We welcome you to our High School, which is the beginning of a journey full of adventures, experiences and a lot of knowledge for all the children who attend. When someone is in a position of responsibility, like that of the High School Principal, he can try to make the dreams of every child, every parent, every teacher a reality. I invite all of our fellow passengers to join us on this journey, both young and old!!!

*Best Regards,
Michalis P. Kousoulakos
High School Principal*

Dear parents and guardians,

Our school is a vibrant community that changes, evolves and adapts instantly to the constant changes of our educational system, and this is something we are proud of.

We would like to introduce ourselves, to present the philosophy and curriculum of Ekpaideftiria Bouga and to convince you that your child's schooling is not a luxury, but an investment for its future.

*Best Regards,
Evanthia A. Papanikolaou,
Lykeio Principal*

Our High School has a modern school network, where management, teachers and staff work in an organized and systematic manner for the implementation of our visions for education of the 21st century. Our goal is to be a modern, democratic and humane school through collective work, consistency and dedication.

We all struggle daily, so that our children ... can

- be independent
- be responsible
- cooperate
- believe in the value of volunteering and helping others
- approach the problems of the modern world

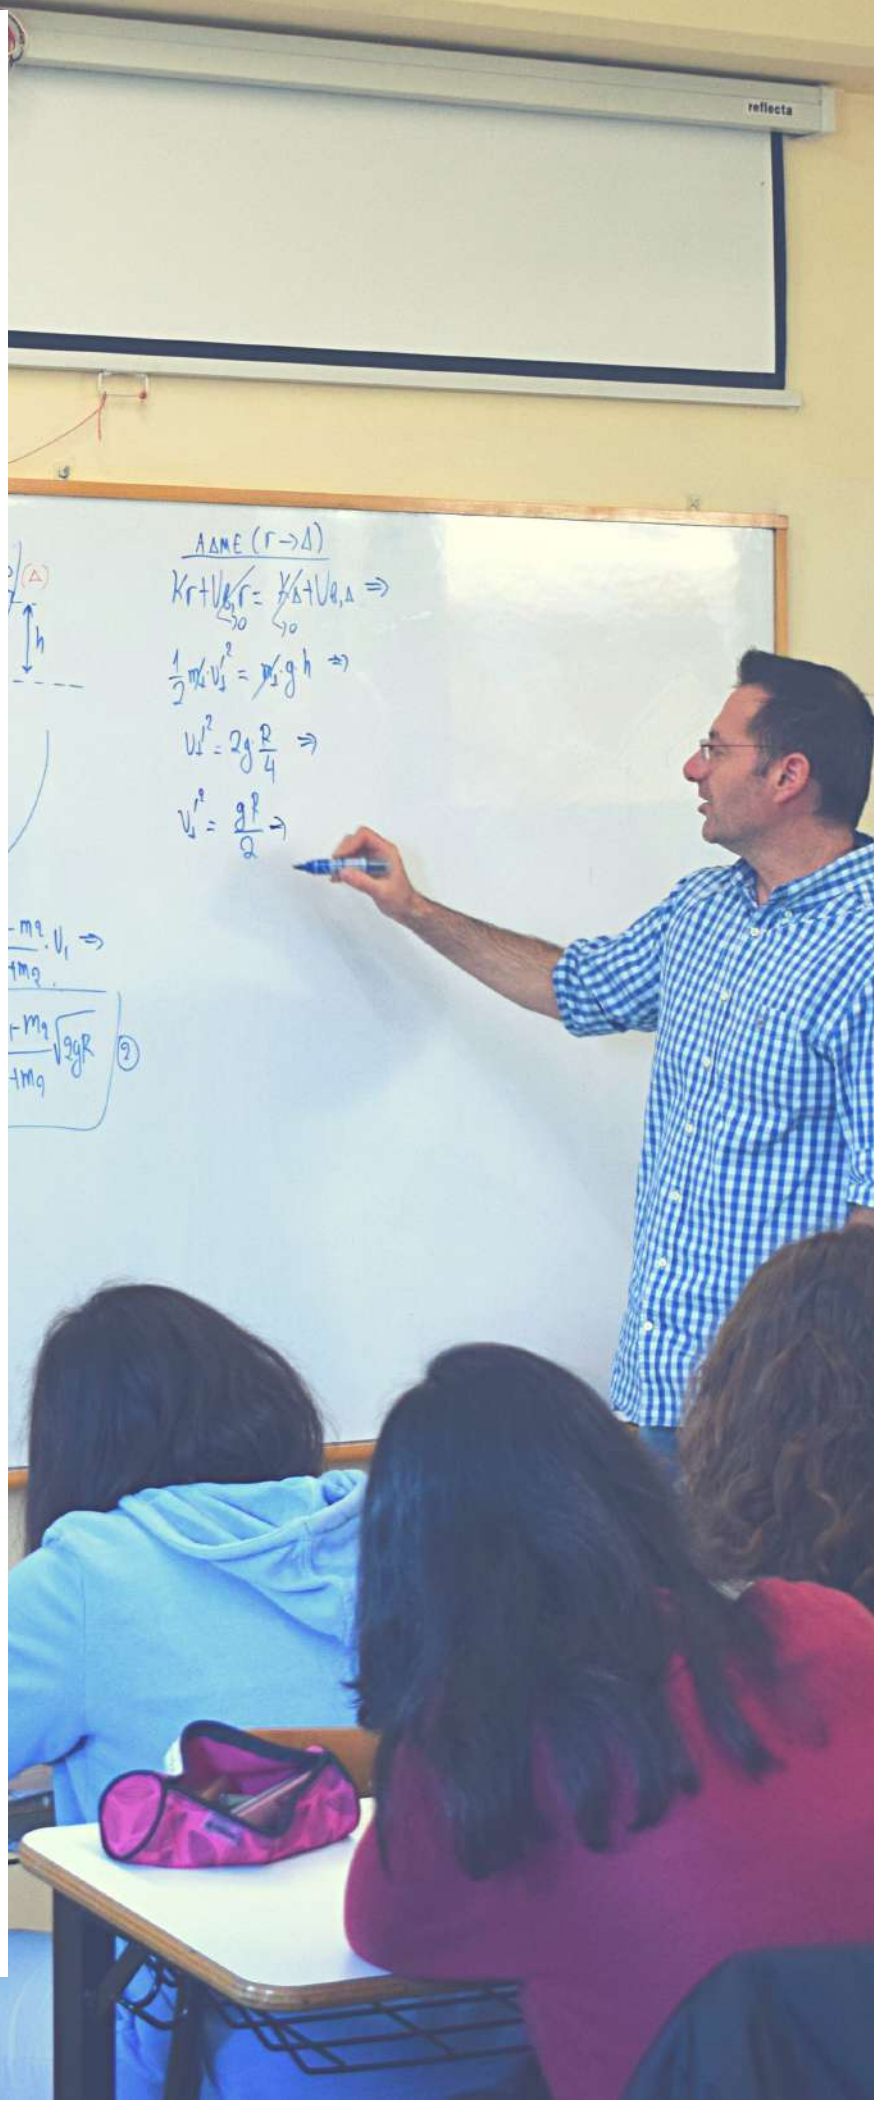

We all strive so that our children...

- develop their perception and critical thinking
- foster democratic culture
- socialize
- accept diversity
- develop social concerns
- be active in addressing problems arising within the school community

Why should a student attend Lykeio at Ekpaideftiria Bouga?

- A student who follows the curriculum at our Lykeio and studies systematically and is organized, can achieve their goal without any additional help.
- For the quality of our school's educational services (continuous evaluation of teachers, extended curriculum, innovative programs, clubs).
- For the safety provided to our students from the time they board the school bus until they return home at noon.
- For our teachers great experience in the preparation of students for the Pan-Hellenic exams, as they are well aware of the requirements and logic of specific exams.
- For our teachers ability to adapt immediately to the changes of the Higher Education entrance system so that the transition of our students from one system to another is smooth and they feel safe.
- For the continuous communication and cooperation, with parents, where the learning process, but also each child's behavior, is presented objectively.

DESCRIPTIVE ASSESSMENT

At Ekpaideftiria Bouga we focus on the descriptive evaluation report, which relates to selected subjects that this year were Greek, Natural Sciences, Mathematics, English and the Skills Laboratory course.

- It is a qualitative assessment of the student's performance
- Fosters collaboration
- It doesn't create performance anxiety in students.
- It boosts self confidence
- It takes the well being of students into account
- Strengthens the cooperation between school and family

INFORMATICS

In IT class, High school students learn to use Microsoft. The High school and Lykeio students who wish to do so, the Computer laboratory gives them the opportunity to obtain EL.IN.PI (HELLENIC INSTITUTE) certification

CERTIFICATIONS) in the sections Microsoft Word, Microsoft Excel and Microsoft Internet Explorer - Outlook) until the completion of their course at Ekpaideftiria Bouga.

FOREIGN LANGUAGES

ENGLISH

- Developing oral and written skills using modern technologies
- Preparation and participation in language examinations by the main examination bodies at levels B1 to C2
- Able to prepare and participate in the IELTS exams to achieve their admission in English-speaking Universities
- Preparation for the special English course for the Panhellenic exams in the 3rd year of Lykeio
- Participation in MUN Youth Assembly conferences, in European programs (Erasmus, e-twinning,) Panhellenic competitions etc
- Educational trips to Great Britain and attending courses in English Universities
- Innovative reading program

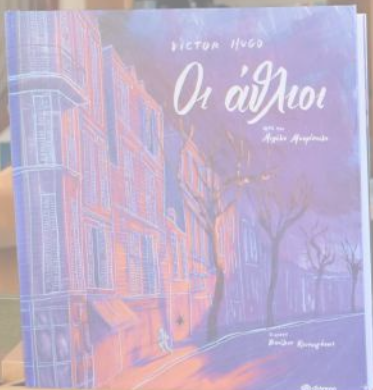

SECOND FOREIGN LANGUAGE FRENCH - GERMAN - ITALIAN

- Development of a positive attitude towards the Second Foreign Language
- Introduction to the culture of the respective country
- Proficiency and certification of language proficiency through obtaining internationally recognized diplomas

AFTER SCHOOL HIGH SCHOOL ZONE

After the school lessons and after a break, there are two teaching hours, during which the students can join the program, Study Hall (First - Second Year of High School), completing their homework for the next day.

AFTER SCHOOL LYKEIO ZONE

After the school lessons and after a break:

- Students of the First year of Lykeio can attend tutoring courses in Greek, Algebra and Physics.
- Students of the Second and Third year of Lykeio are able to attend private classes or classes in very small groups (2 - 3 persons the most) of the same level and learning needs.

BOOSTING PROGRAM FOR GREEK - MATHEMATICS

It is a program that supports and boosts high school students in Greek and Mathematics.

During the school year - after school hours - there are free, 4 three-hour lessons where students become familiar with learning techniques and concepts in the specific courses.

CLUBS

FREE EXPRESSION, DEBATE AND CREATIVE WRITING

The of Free Expression, Debate and Creative Writing Club gives students the opportunity to develop their skills in a pleasant and dynamic environment. The participants learn how to develop and rebut arguments, how to structure spoken and written language, to support their ideas with documentation. Everyone can become members of the teams representing Ekpaideftiria Bouga at the Debate Championship held in our country (Athens, Thessaloniki, The Peloponnese University).

NATURAL SCIENCES

The Natural Sciences Club is addressed to students interested in fields of knowledge related to research and experiments. Through their participation they can develop their skills and combine physics, chemistry and biology with everyday life.

CLUBS

CHOIR - THEATER CLUB

When children take part in music through the school choir they develop emotionally and socially.

Children discover new roles, write dialogues, disguise themselves, form groups and find solutions, express themselves freely without inhibitions and hesitations, observe, relax, understand the limits of imagination and reality, master the knowledge through the senses and discover new aspects of life and the world, then play theater, which is an excellent means of raising awareness of children and their general cultural education.

SCHOOL LIFE

- We establish dialogue and cooperation between the teacher and the children in the process of searching for and transmitting essential knowledge
- We strengthen the children's initiative and at the same time we make sure to provide them with everything they need. We create a climate of trust between teachers and children
- We create clear rules with the cooperation of teachers and children, which are reflected in the Internal Rules of Procedure
- We use the institution of student councils to engage all children in school life
- We organize discussions with the aim of informing and raising awareness among all members of the school community regarding issues that concern us.
- We provide opportunities through group activities to develop team spirit
- We stand by the children every day taking advantage of the beneficial role of the Classroom Leader and the School Life Counselor
- We organize educational and recreational excursions / trips

ONLINE PLATFORM

We offer our students and parents an extremely easy-to-use, safe and flexible environment tailored to the pedagogical principles for the management of learning and of lessons.

SCHOOL AND FAMILY

- We want substantial cooperation with parents/guardians for the better education and progress of children, as well as the more productive function of the school
- We make sure that there is frequent communication between school and parents We hold regular meetings between parents and guardians (approximately every 40 days)
- There are times and days available during which the parents can communicate with the teachers either by phone or in person.

INNOVATIVE PROGRAMS

YOUTH ENTREPRENEURSHIP

The entrepreneurship educational program "Virtual Enterprise" of the Youth Entrepreneurship Association is aimed at 1st and 2nd year Lykeio students.

The philosophy of the program is that students, through the creation of their own "virtual business", take responsibility, organize actions, draw up a business plan, convince their sponsors, the consumers and the judges of the importance of their "product" or "service". Our school participates in this program, gaining great experience both in national and European level.

CAREER GUIDANCE PROGRAM

The career guidance program seeks to guide the student through targeted learning processes, to discover his own inclinations, values and to gain experience in a work environment.

The program consists of three parts: Part A: SELF-STUDY
B' part: EDUCATIONAL - WORKING ENVIRONMENT STUDY
PART THREE: GAINING PROFESSIONAL EXPERIENCE

PANHELLENIC TWO - DAY SPORTS DAY

Ekpaideftiria Bouga, the Ephorate of Antiquities of Messinia and the Municipality of Messinia co-organize the Panhellenic Sports Day - Classical Sports for Primary School students, for all grades off High school and Lykeio in the country, which takes place at the Stadium of Ancient Messina. The Two-Day Event takes place with the approval of the Ministry of Education and Culture as an educational sports program. Ekpaideftiria Bouga hosts schools from all over Greece on this sports day.

Objectives:

- Promotion of fair play
- Socialization of Children
- Opportunity to meet peers from different parts of the country
- Opportunity to compete in a historic place
- Emphasis on experiential learning as children guide schools through the area
- Emphasis on the value of volunteering by pupils and teachers

SCHOOL BENEFITS

The primary concern of all of us is the safety of children at every level.

- A Nurse is present throughout the day at our school
- A Child psychologist - Speech therapist cooperates with teachers and informs parents
- Teachers on duty during break time overseeing the area students are in (field, canteen, outdoor area, communal areas)

MEALS

The school offers meals as an additional optional benefit. The menu is adapted to the children's diet needs by a nutritionist and pediatrician.

CERTIFICATION

Our school is certified according to ELOT ISO 22000:2005 for the food services it provides to students.

It has also been certified by the TUV HELLAS for the adherence to the health protocols that are considered necessary for the safe operation of the school and concern the implementation of all procedures for the treatment of Covid-19.

SCHOLARSHIPS

Ekpaideftiria Bouga offers scholarships for outstanding academic performance. Initially, three (3) scholarships will be given through the procedure of written exams and interviews to Primary school students, who will graduate this year from the Sixth Grade and during the 2023-2024 school year, will attend the First Grade of High School.

One (1) scholarship will also be awarded to a child of the 1st year of High School, the 2nd year of High School, 3rd year of High School and the 1st year of Lykeio, who in the school year 2022-2023 will necessarily meet the condition of excellent performance.

- A score of 19.01 or higher (1st, 2nd, 3rd', High School)
- Score equal to or higher than 18.75 (1st grade of High School)

The scholar of each class will ultimately result from specific procedures.

For more information you can complete the interest form found by scanning the adjacent QR code.
