Snake island

About 25 miles off the coast of Brazil there (0) a mysterious island known as Snake Island. Almost every Brazilian knows (1)..... this place ,which is home to one of the (2).....dangerous snakes in the world, the lancehead viper. In fact, there are so many of these deadly vipiers that the Brazilian government has made it illegal for people to visit the island without a special permission. According to a local legend, the snakes were originally (3) to the island by pirates, (4)..... wanted to protect the treasures they had buried there. Today no one lives on the island, but people used to live there until the late 1920s, when the island's last lighthouse keeper (5)..... killed by vipiers which entered his home through the windows.
